Dr. Paresh Gohel

Chairman Mount Litera Zee School, Ahmedabad

"We don't have to be smarter than the rest. We have to be more disciplined than the rest." -Warren Buffett

Our children represent our hopes and dreams. As a parent, you want the best for your child and we are proud to be working with you to ensure that they are given the right knowledge to face future challenges. The importance of education in the life of an individual cannot be overstated. It shapes individuals in their formative years and imbues them with values that would govern all their choices in life. It is said 'If you are planning for a year, sow rice; if you are planning for a decade, plant trees; if you are planning for a lifetime,

educate people'. Indeed, one can even say that the quality of education will determine the destiny of the nation.

Mount Litera Zee School Ahmedabad aims to give its children the roots that will enable them to fly on the wings of excellence. The school takes pride in its highly qualified and dedicated staff who works towards including certain values in the students in order to enrich their mind and spirit and also to develop essential moral attributes like truthfulness, courtesy, generosity, compassion, justice, love and trustworthiness in them.

We are truly honored to be entrusted with these children and our role in helping to shape and guide them. We make every effort to ensure the environment and programs are wonderful and help each child in their academic journey. We are helping to shape the future citizens of our community and as we say "The Leaders of the 21st Century".

Dr. Anurag Pandey CEO Mount Litera Zee School, Ahmedabad

"We believe life is constantly testing us for our level of commitment, and life's greatest rewards are reserved for those who demonstrate a never-ending commitment to act until they achieve. This level of resolve can move mountains, but it must be constant and consistent."

- Tony Robins

On behalf of everyone at Mount Litera Zee School, Ahmedabad, I take this wonderful opportunity to extend a very warm welcome to all of you.

Our vision is to provide world class education for all the students in our care. We take great pride in helping our students to grow emotionally, physically, socially and academically. We try our best to provide a conducive environment that inspires every student to strive harder and soar high.

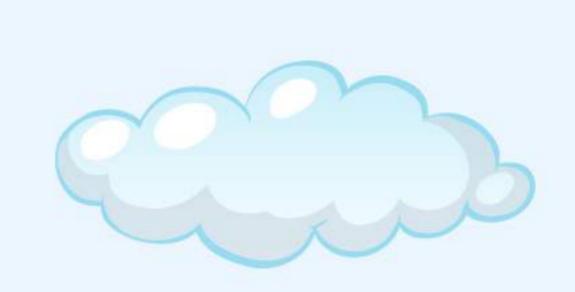

We are thankful to our supportive parents community who believe in the ethos of the school. We look forward to meaningful interactions with you so as to provide a solid and unwavering foundation to our students. I am sure with your support we will together be successful in bringing up cheerful, confident lifelong learners.

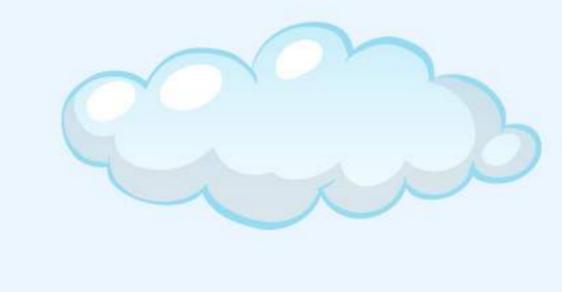

I am honoured to be a part of such a dynamic learning environment which strives to embrace creative thinking, risk taking and collaboration.

I look forward to see our students collaborate effectively and make a positive difference to our society.

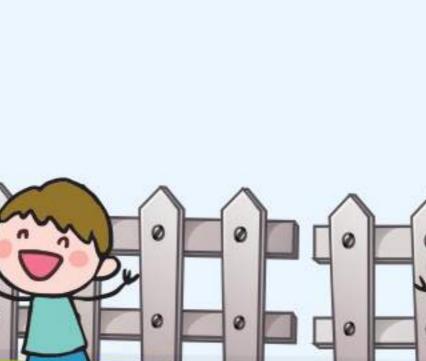

Dr. Sunita Singh Principal

Mount Litera Zee School, Ahmedabad

"One's single greatest strength may be uncovering hidden talents of another"

The commendable journey always starts with small dreams packed in a backpack. Being the principal, I believe in the holistic development of children where every child is born and bestowed with unlimited hidden potential and talents. We at Mount Litera Zee School works in partnership with the parents for focussing on discovery and nurturing individual talents of our children, by providing desired platforms to make them reach their the full potential and prepare them for their future accomplishments.

- Tom Rath

What we do to achieve the child's full potential?

We believe that every child is unique, and they must be allowed to express and choose. We encourage our children to participate in various extra curricular activities. When children take part in activities, they develop critical thinking skills, problem solving skills, social skills, creativity skills, persistence, self-control-that allow them to grow into holistic individuals.

Thus, education beyond classroom help in grooming well balanced individual, who is physically, socially, psychologically strong and responsible global citizen.

EMERGING STUDENT PROFILE

ESP is a homegrown unique assessment and nurturing programme that makes Mount Litera distinctive. Under ESP, we make sure that everything that we do at Mount Litera systematically and effectively helps the child achieve his or her best. And, of course, to become the thought-leaders of tomorrow. This is achieved by combining three essential faculties in ESP:

> Formulated by in-house child development experts

Focuses on a holistic development process

Emphasis on knowledge, skill & values /

Life Skills
Knowledge
Core Values

SANSKAAR)

LIFE REVOLVES AROUND THESE SIX CULTURE

It's surely our responsibility to do everything within our power to create a planet that provides a home not just for us, but for all life on earth.

Women's Honour:

Women are the key to preserve the human race and in today's world, the importance of women in the society is beyond any suspicion.

Ecology:

Anything people are interested is not going to happen if they can't breathe the air or drink the water. Don't sit this one out.

Human Values: 域。

Children learn more from what you are than what you teach. It is not what we do for our children, but what we taught them to do for themselves, that will make them successful human beings.

Environment:

We do not inherit the earth from our ancestors, we borrow it from our children.

Patriotism:

We are blessed with the opportunity to stand for something, for liberty, freedom and fairness. And these are things worth fighting for, worth devoting our lives to.

unleash the child's potential and you will transform them into the world.

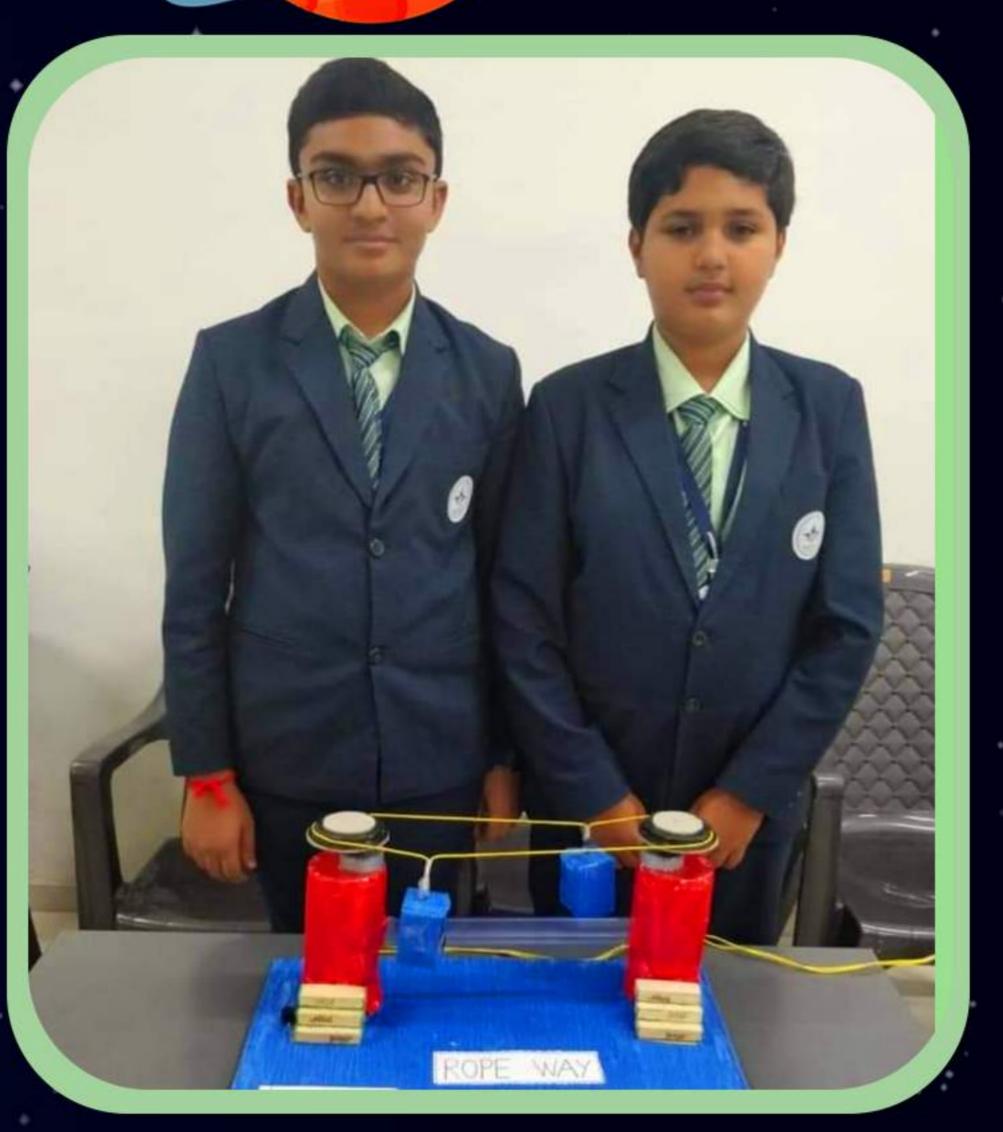

YOUNG SCIENTISTS IN ACTION

The Science of Tonology is morrow

We opened the doors to this place of learning and academic excellence with great commitment. We believe that a child's growth is the heart of the community. Children Stream through our doors & hallways and with them comes the competition and hopes of parents. To fulfil them we try to make great steps.

Science is a way of thinking than just a body of knowledge. We are here to make the future brighter and peaceful.

Climate change is a terrible problem, and it absolutely needs to be solved.

It deserves to be a HUGE PRIORITY.

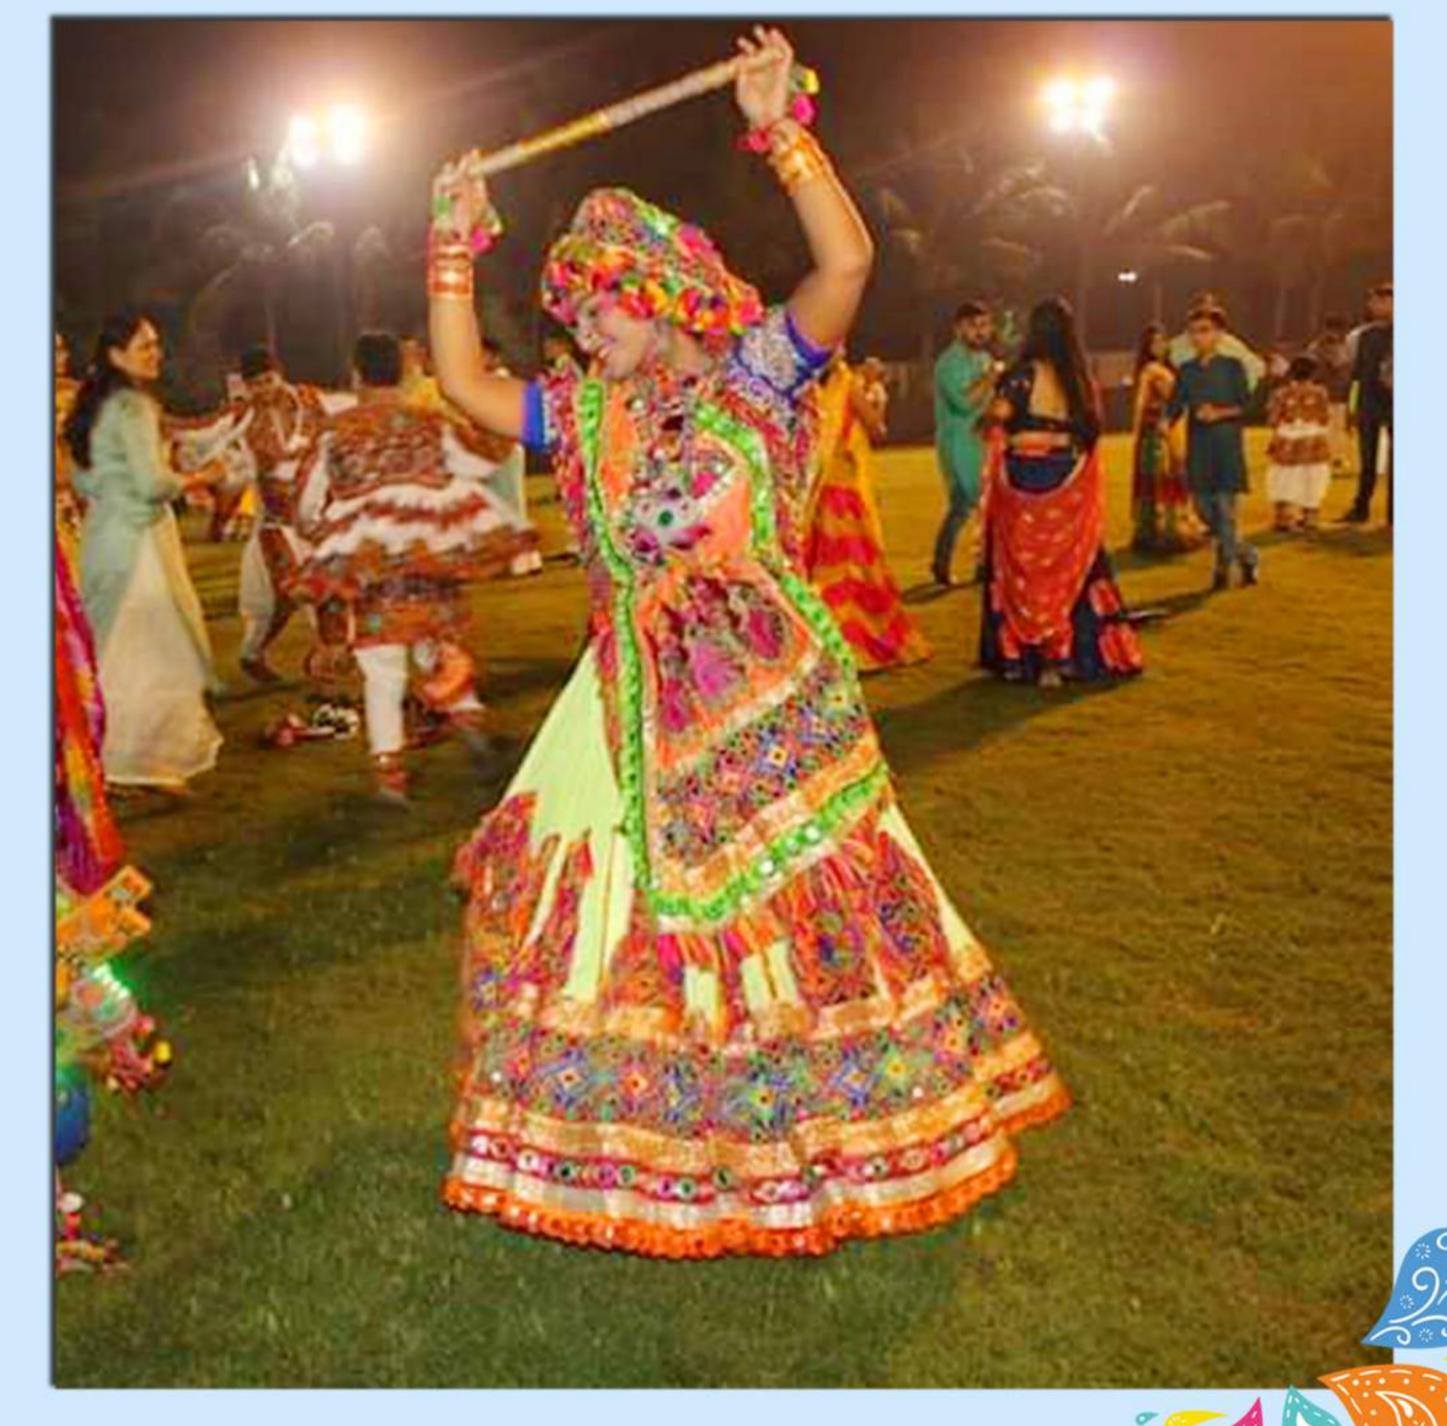

It is the biggest annual event in the world ran by the United Nations to mark the environmental awareness among the people. Its main aim is to raise awareness to protect nature and look at various environmental issues that are growing day by day.

mour culturem

Let freedom reign. The Sun never set on so glorious awakening. Its a human achievement.

A Place, where each bud blooms in its true colour. Where each day is celebration of Unity, Harmony and Synthesis.

On 14th September every year, Hindi Diwas is celebrated to promote and propagate the official language

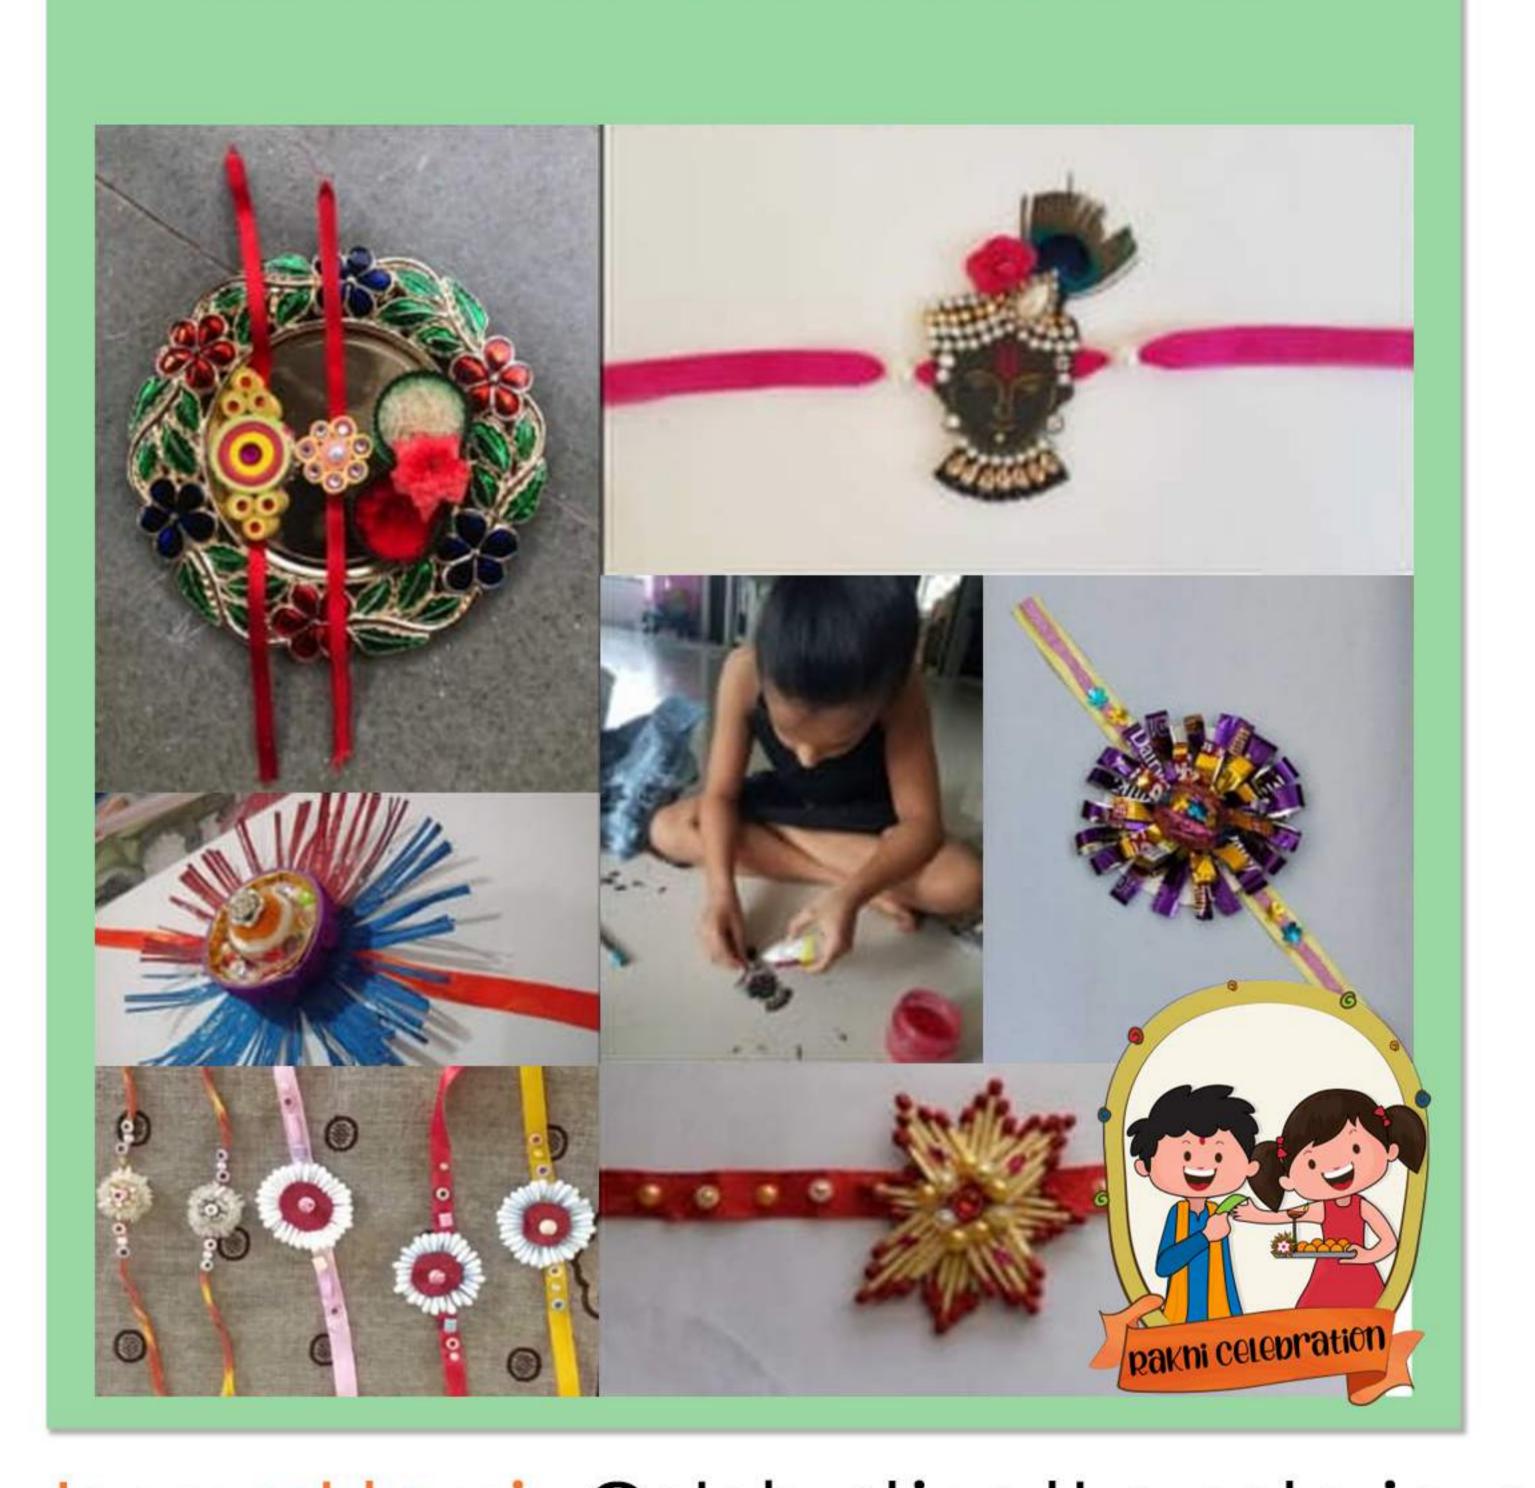

On Mother's Day, we take a moment to stop and honour our mothers for all they do. Mother's Day is a welcome event in partisan times. Nearly everyone agrees that we should show mothers gratitude.

ALWAYS A FRIEND, ALWAYS A SISTER!

Sending the thread of love which bind the heart & life and makes the bond of togetherness stronger.

We at Mt. Litera want our children to value every relationship to its fullest. Through this Rakhi Making Day, we are blending our cultural values and ethics in our children.

Janmashtami- Celebrating the notorious and adventurous side of Shri Krishna

GARBA: TO EXPRESS DEVOTION AND LOVE FOR GODDESS DURGA

This chapter focuses on the role of music in early childhood, including the importance of musical experience.

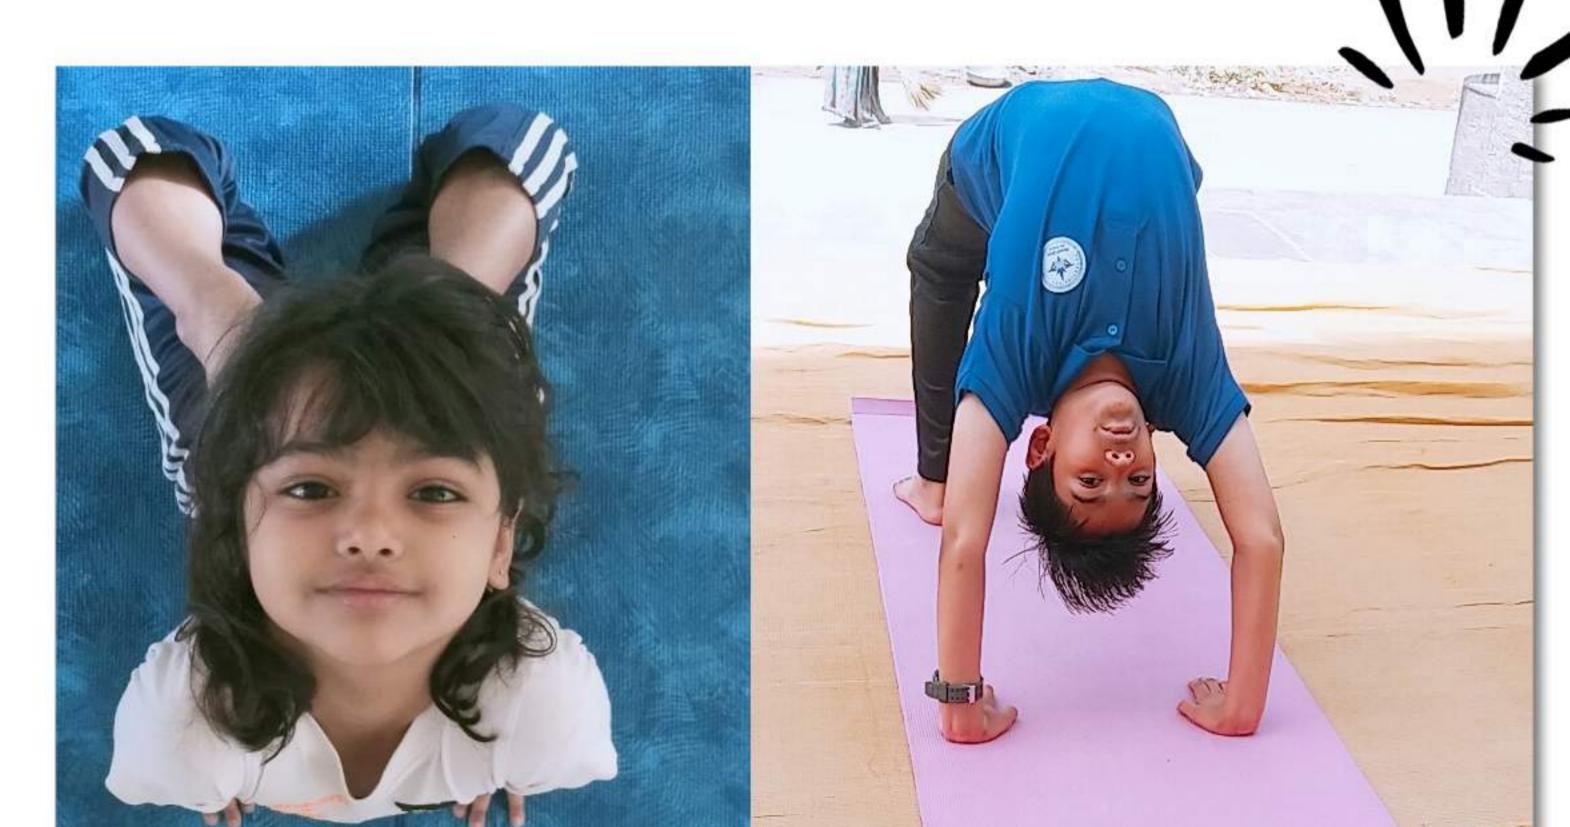

It also explores musical activities and repertoires appropriate for young children.

Being musical is the rhythm of sound and soul!

Exercise to stimulate, not to annihilate. The world wasn't formed in a day, and neither were we. Set small goals and build upon them.

Yoga is about creating a life that brings more beauty and more love into the world.

To dance is to be out of yourself. Larger, more beautiful, more powerful. This is power, it is glory on earth and it is yours for the taking. A good dancer is not necessarily defined by great technique, skill, or ability to pick up choreography but by confidence. When you feel the music, it penetrates to your soul.

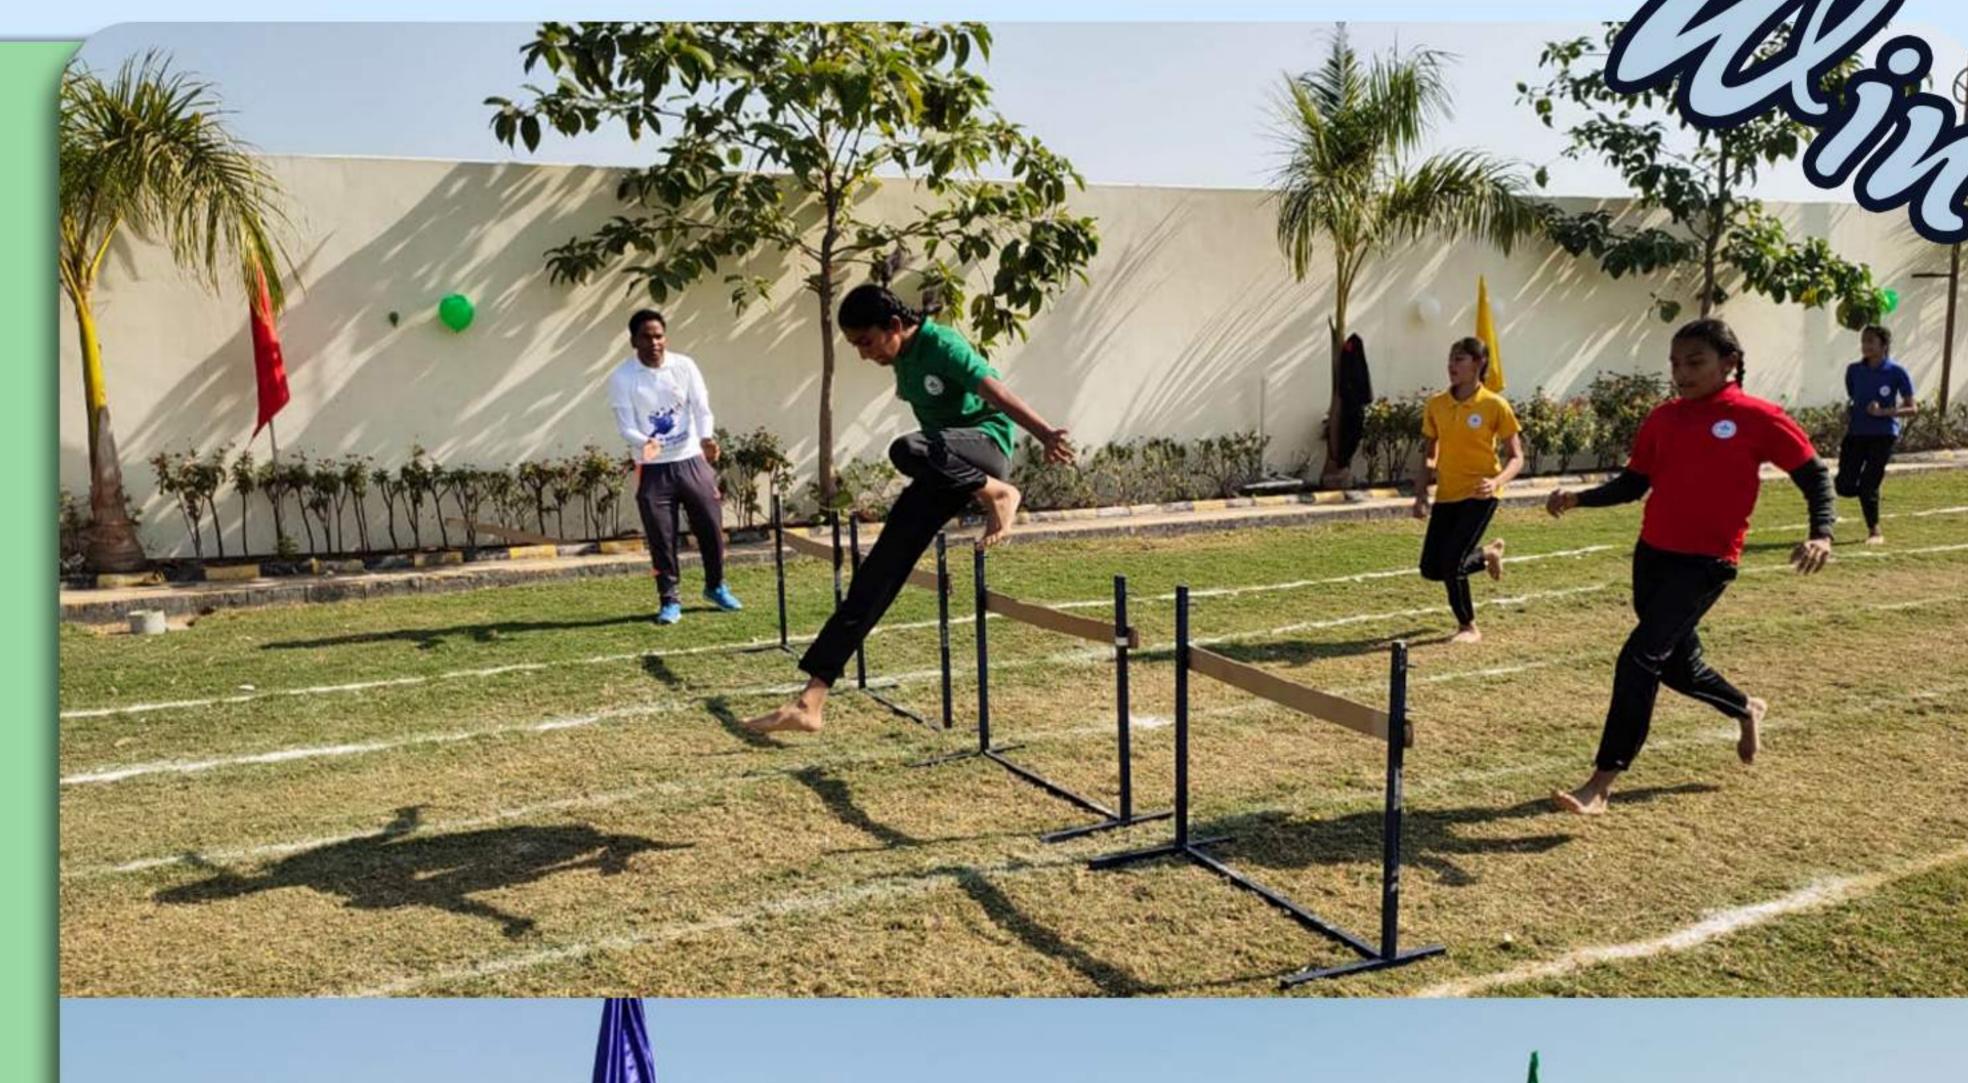

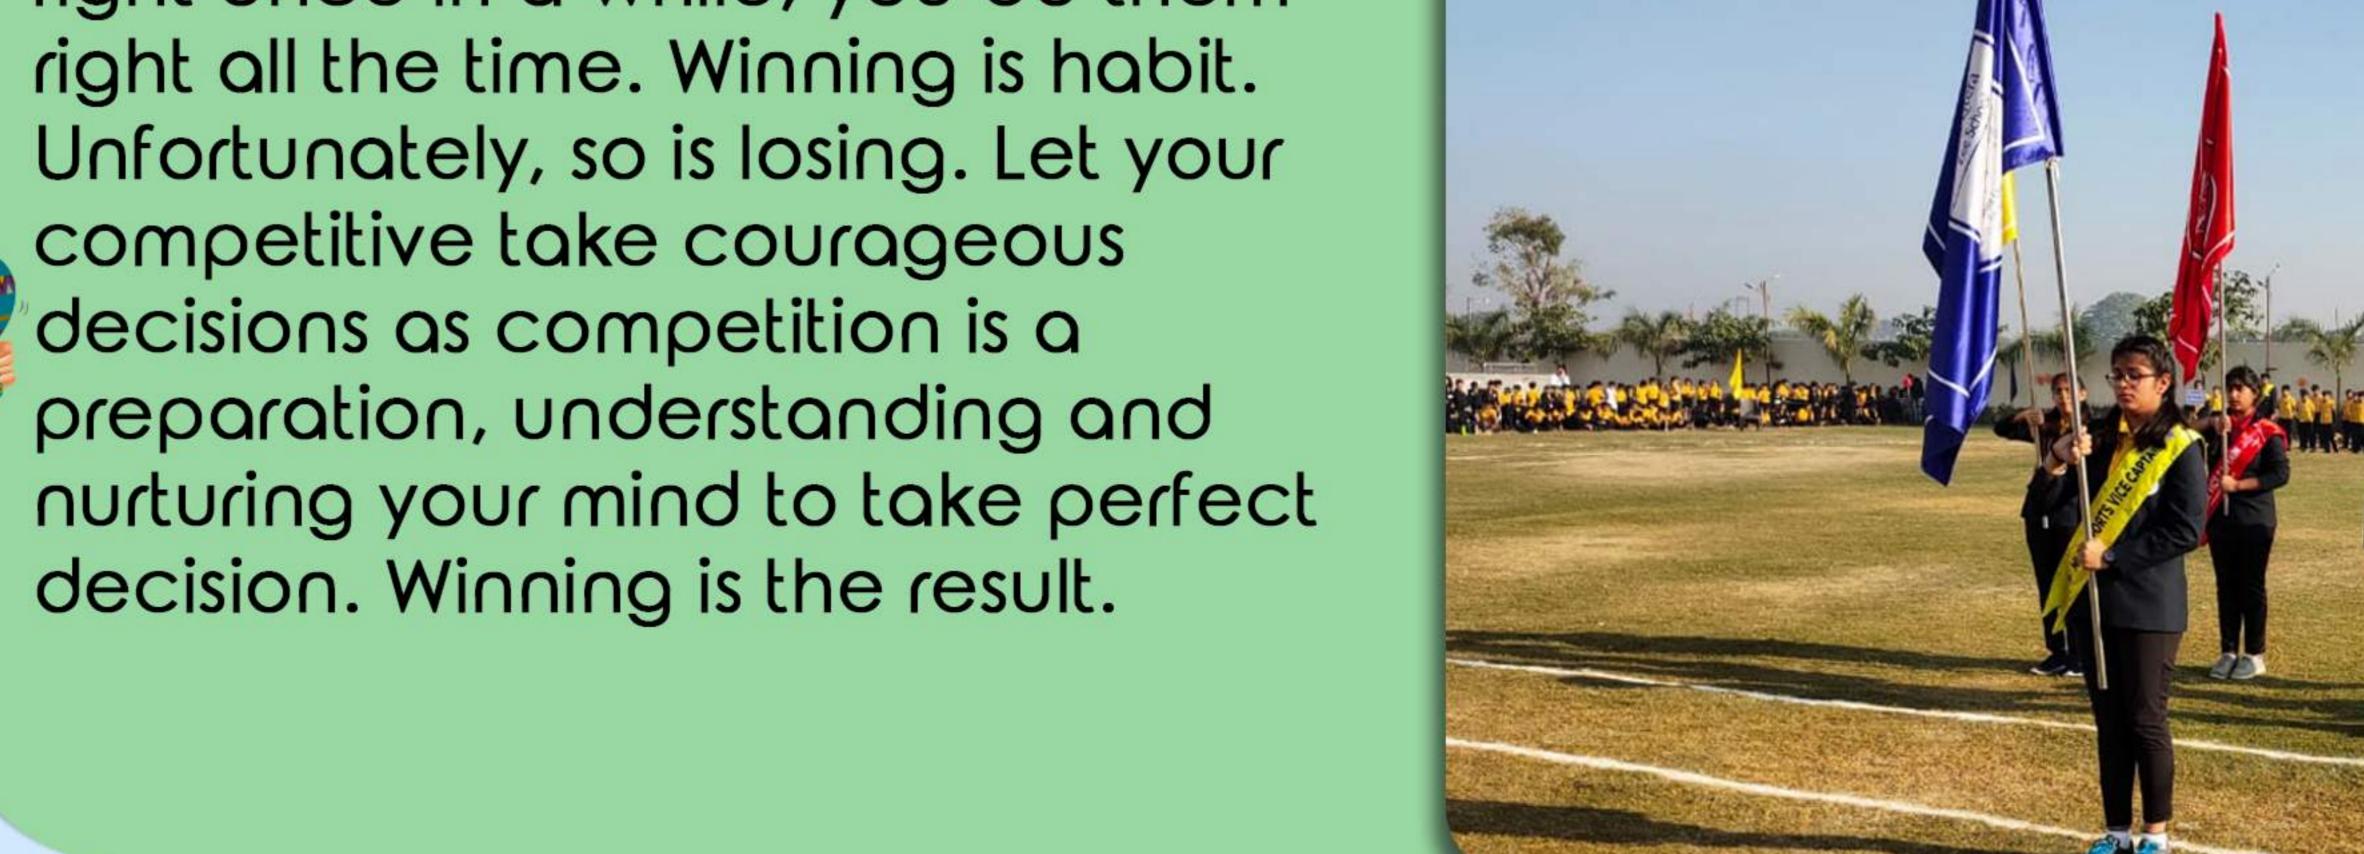

Words are powerful. Using them to inspire your dancers is one of the best gifts you can give a child. These quotes can impact not only their lives in your studio, but overflow into their lives at home, school, and around their world. What you teach them will be carried away with them wherever you go. Using inspirational phrases to motivate and uplift your students will give them the confidence they need to master skills and the self-worth that they are good enough.

Sports: You Win and You Lose. That's the nature of sports. You can't get away from that part of it. And if you get too hung up on the losing part, then you miss the boat.

Winning is not a sometime thing; it's an all time thing. You don't win once in a while, you don't do things right once in a while, you do them Unfortunately, so is losing. Let your competitive take courageous preparation, understanding and nurturing your mind to take perfect decision. Winning is the result.

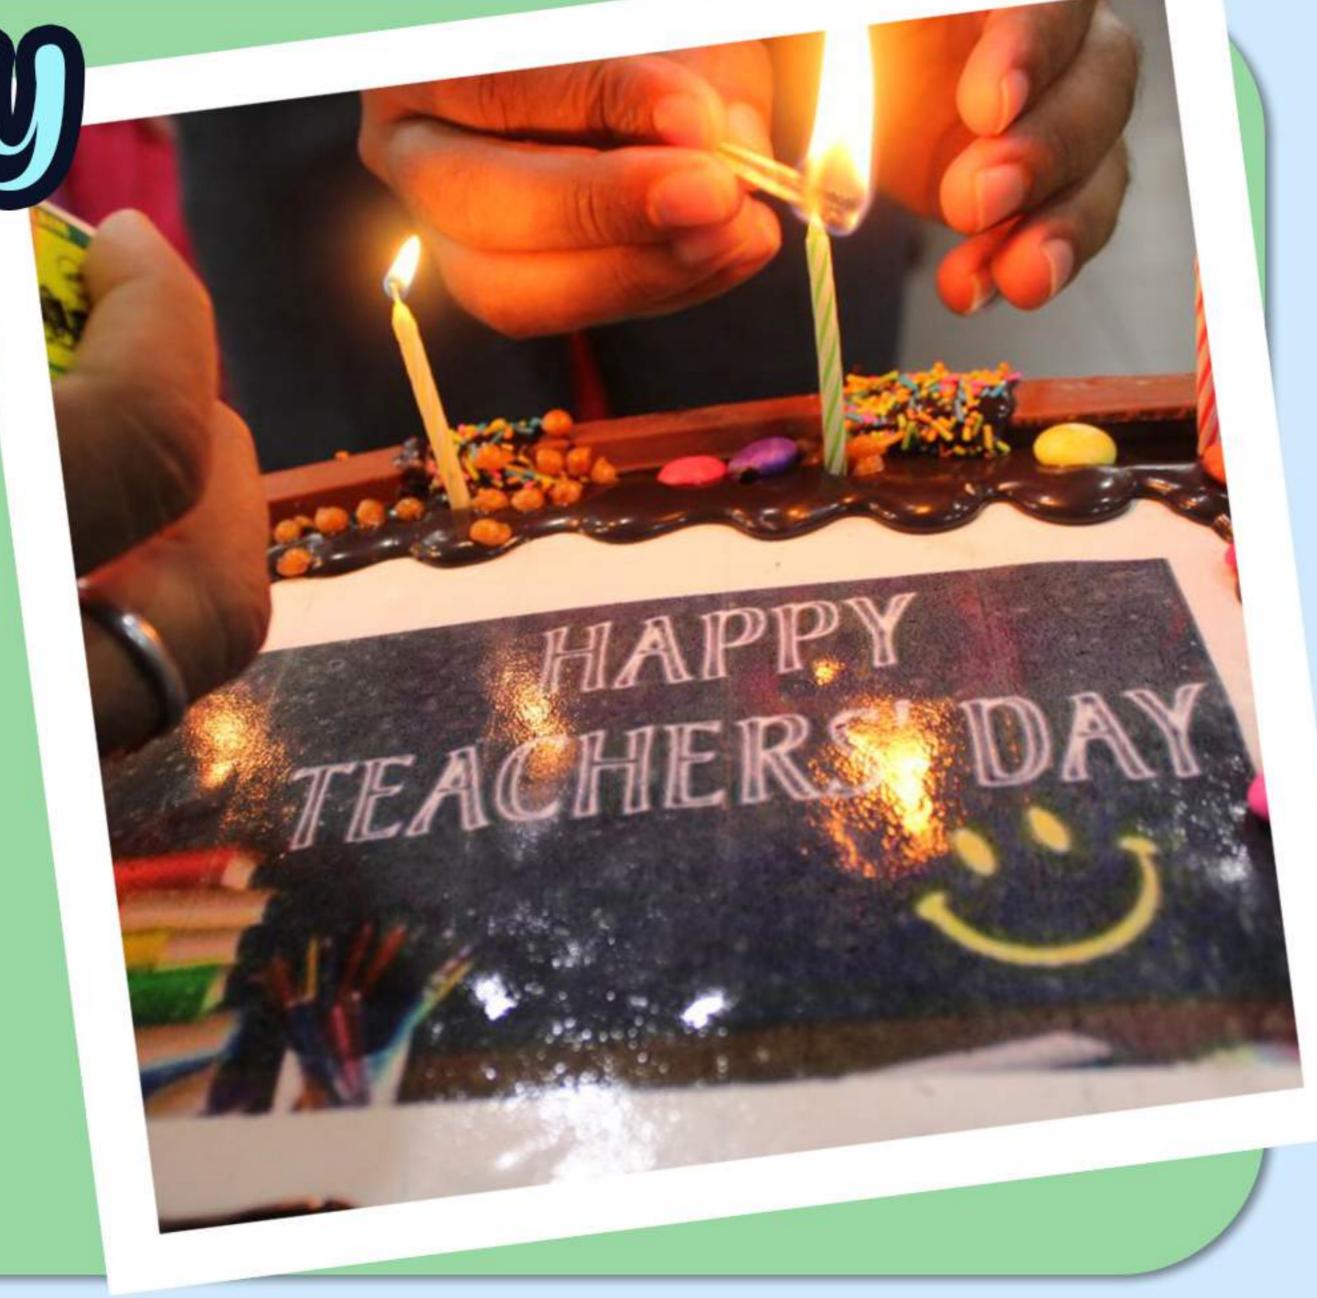

For us photography is an art of observation. It's about finding something interesting in an ordinary place. We have seen that it has little to do with the things you see and everything to do with the way you see them.

Photography is a way of feeling, of touching and of loving.
What you have caught on film is captured forever... it remembers little things, long after you have forgotten everything.

All over the country, thousands of schools and teachers are working incredibly hard, day in day out, to make the world a better place.

We are committed to helping them and achieve the vision what we teachers have for our children and the world altogether.

Mind mapping is a technique based on memory, creativity, comprehension and understanding, so when the student or a child uses the mind map, they are using their brain in the way their brain was designed to be used, and so the mind helps them in all learning and cognitive skills. It simply helps them in what the brain does naturally.

The best teachers don't give you the answer, but they spark within you the desire to find the answer yourself.

Hardworking, passionate teachers know their students' needs better than anyone else in the school environment. If we can tap into their needs, we can unleash smarter solutions and empower those people on the front lines.

Ranievement wan

"Would you like me to give you a formula for success? It's quite simple, Double your rate of failure. You are thinking of failure as the enemy of success. But it isn't at all. You can be discouraged by failure or you can learn from it, so go ahead and make mistakes. Make all you can. Because remember that's where you will find success."

CRITICISM IS EASY; ACHIEVEMENT IS DIFFICULT.

The real success of our personal lives and careers can best be measured by the relationships we have with the people most dear to us — our family, friends. If we fail in this aspect of our lives, no matter how vast our worldly possessions or how high on the corporate ladder we climb, we'd still failed the school of life.

The task of leadership is not to put greatness into humanity, but to elicit it, for the greatness is already there.
